09602210 - 12/04

**FOR FLOWERS, SEEDS,
TREES, SHRUBS,
VEGETABLES**

**REDUCES
TRANSPLANT
SHOCK**

SHAKE WELL BEFORE USING.

Use Lilly Miller® VITAMIN B₁ PLANT STARTER to reduce transplant shock in flowers, shrubs, trees, fruits, nuts, vegetables, herbs, groundcovers, and house plants. Use in addition to a normal fertilization program.

Ornamental Shrubs and Trees, Fruit and Nut Trees, Citrus, Berries (balled, bare root or in containers): Use 2 tablespoons per gallon of water. Apply the mixture to the roots or root ball as plants are set into the planting hole. Cover the roots with soil. Apply the mixture to the entire root area at the rate of one gallon mixture to 10 sq. ft. Repeat every two weeks until plants are well established.

Bedding plants (annual and perennial flowers), Groundcovers, Vegetables and Herbs (from transplants, bulbs, or seed): Use 1 tablespoon per gallon of water and thoroughly saturate the root area at the time of planting, at the rate of one gallon of mixture per 10 sq. ft. Repeat every week until the plants are well established.

House Plants (when repotting and at planting): Use 1 tablespoon per gallon of water. Thoroughly water plants with the mixture each week until they are settled in and well established.
