Citrus and avocado trees of all kinds need a special combination of plant foods to grow their best and produce that delicious fruit. These trees need lots of nitrogen and Lilly Miller CITRUS & AVOCADO FOOD is the easy way to make sure they have it – when they need it most.

Lilly Miller blends natural ingredients with traditional plant foods to produce a unique fertilizer that provides nitrogen from five different sources. We've added a mix of nutrients that are available to the plants quickly to help get them off to a great start. We've added others that last longer to keep on feeding your trees steadily for up to six weeks. Citrus & Avocado Food also supplies extra minerals, so plants will never be hungry for these essential elements.

HOW DO I USE THIS PRODUCT?

Start feeding with Lilly Miller Citrus & Avocado food in February or March and then every 6 weeks after that up to four times each year. Use the amounts shown in the charts below for each of the four feedings.

Sprinkle the fertilizer over the soil surface, along the drip line of the tree. Scratch lightly or mix it into the soil surface. Be sure to avoid damaging shallow roots.

Citrus:		Avocados: Feed in February and in June.	
Height	Use this amount:	Height	Use this amount:
1-2 feet	3 tbsp.	1-2 feet	3 tbsp.
2-3 feet	1-1/4 cups	2-3 feet	3/4 cup
3-6 feet	1-1/2 cups	3-6 feet	5 cups
6-8 feet	2 cups	6-8 feet	7 cups
8-10 feet	3-1/2 cups	8-10 feet	13 cups
over 10 feet	6-1/2 to 10 cups	over 10 feet	13 cups

Feed dwarf trees 1/2 the recommended amounts in the above tables.
After applying Citrus & Avocado Food, water entire area.

For citrus and avocado trees in containers: Feed these plants on the same schedule as in-ground trees. Sprinkle fertilizer evenly over the soil surface and mix lightly into soil. Do not disturb roots.

First year 2 tablespoons
Up to 4 feet tall 4 tablespoons
Over four feet tall 1/2 cup

After applying Citrus & Avocado Food, water container thoroughly.
