SCOOP INSIDE! APPLY ONCE TO FEED UP TO 4 MONTHS

ROSES: When planting new roses, mix 1 tablespoon with soil around roots. For established plants, use 1 tablespoon per square foot of soil surface. Apply evenly over the root zone. Work gently into top ½ inch of soil. Water thoroughly.

OTHER BLOOMING PLANTS (annuals, perennials, bulbs, vines): When transplanting, mix ½ - 1 teaspoon with soil before planting in the ground. For established plants, use 1 tablespoon per square foot of soil surface. For plants in containers, use 1 - 2 teaspoons for 4 - 8 inch containers (1 tablespoon for 1 gallon container, 3 tablespoons for 3 gallon container). Apply evenly over the soil surface. Water thoroughly.
