### Premium Soluble AFRICAN VIOLET FOOD

FOR BEAUTIFUL FLOWERS & FOLIAGE

NET WT. 6 OZ. (170 g)

# SPOONIT®

**SPOONIT® AFRICAN VIOLET FOOD** is a concentrated, water soluble plant food formulated especially for African Violets and other gesneriads (such as Gloxinia, Lipstick Plant, Cape Primrose, Goldfish Plant, Flame Violet, and Cupid's Bower). This formula is rich in phosphorus for strong roots and lots of blooms, plus magnesium and sulfur for vibrant colors and plant vigor.

DO NOT APPLY IN DRY FORM.

During the growing season, use **SPOONIT® AFRICAN VIOLET FOOD** every time you water. Dissolve ¼ teaspoon in one gallon of room-temperature water. To feed less often (once or twice per month), dissolve ½ teaspoon per gallon of water. Apply to soil only. Do not apply to foliage or flowers, to avoid spotting. Once each month use plain water to flush soil of accumulated salts. During the dormant season, fertilize once per month, at the rate of ¼ teaspoon per gallon of water.

**GUARANTEED ANALYSIS (F1475):**

Total Nitrogen (N) .....	10%
10.0% Ammoniacal Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	30%
Soluble Potash (K <sub>2</sub> O) .....	10%
Magnesium (Mg) .....	0.5%
0.5% Water Soluble Magnesium (Mg)	
Sulfur (S) .....	5.0%
5.0% Combined Sulfur (S)	

Derived from ammonium sulfate, ammonium phosphate, muriate of potash, magnesium sulfate.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>.

Filled by weight not by volume. Product may settle after packaging. Keep out of reach of children. Store in a dry location. Keep lid securely fastened. Hardening may occur due to exposure to moisture. Break up clumps before use.
